PROFESSIONAL EXPERIENCE

Operations Engineering Intern   **Jun 2021 – Sep 2021**
Ausmate Pty Ltd, Canberra, Australia
- **Website Development & Maintenance:** Upgrading and updating website content using HTML, CSS, and JavaScript while managing RDS database updates to ensure data integrity and accessibility.
- **Security Enhancements:** Improving website security by setting up automated backup routines, updating SSL certificates, performing pressure tests, installing security plugins, and utilizing third-party software for continuous monitoring.
- **Cloud Server Migration:** Leading the migration of cloud servers to a new service provider, including setting up the OS environment, installing CMS and security tools, configuring IP port connections for testing, and performing site/database migration.

Web Development Intern   **Feb 2019 – Oct 2019**
CSIRO - Black Mountain Site, Canberra, Australia
- **Feature Development**: Collaborating with a team to build and enhance a Django-based website, implementing new features and integrating Neo4j for efficient data management.
- **Testing & Debugging:** Conducting testing and debugging to ensure the site's reliability and performance.
- **Version Control:** Using Git for version control, coordinating with team members to manage code changes and maintain project consistency.

Web Developer & IT Operations Engineer   **Nov 2014 – Jun 2016**
Shanghai Mandelin Wedding Ltd, Shanghai, China
- **Website Development:** Managing and updating website content, building new pages for promotional events, and handling customer orders received through the website.
- **IT Support & Maintenance:** Providing comprehensive IT support, including troubleshooting software and hardware issues, upgrading systems, and managing both wired and wireless network connections within the office environment.

Assistant Software Developer Intern   **Jul 2011 – Sep 2011**
China PnR Company Limited, Shanghai, China

- **Database Management:** Conducting daily checks of the company's database using SQL to ensure data accuracy and performance.
- **Software Development:** Writing test scripts in Java to enhance the coverage and effectiveness of software testing procedures.
- **Reporting Data:** Creating and maintaining salary reports using Excel and SQL, ensuring accurate and timely payment processing.
